

Who we are and what we do

Formed in 1996, The Food Club is London's premier food networking and support club. We are a self-help initiative for companies in, or supplying, the food industry. We aim to encourage trade between ourselves and others and support our members to expand their commercial activities. We hold meetings with a networking dinner on the first Thursday of every month; where speakers talk about various aspects of the food industry. Our members are food manufacturers, importers, exporters, wholesalers, distributors, caterers and suppliers to the food sector.
